What is **WeFund?**

Community crowdfunding incubator
for blockchain and real-world
projects.

What is **WeFund's** **MISSION?**

Host high-quality projects that align with WeFund's investor community.

Community-driven decisions on the platform for 100% transparency.

Project funds managed exclusively on Terra's Anchor protocol using smart contracts.

INVESTOR PROTECTION

Investor Security

Community Decision +
Investor Decision

Money Safe in Anchor and
release using Milestone
under Smart Contract and
Investor approval

Provide **INCUBATION**

Pre-select and prepare projects for community approval to assure successful fundraising and scalability.

Using team of industry experts to advise and pre-select projects from various industries on blockchain and real-world projects.

What is **TERRA** **ECOSYSTEM?**

Terra is the 2nd largest blockchain in terms of total value locked (TVL), with over \$13 billion from 13 protocols.

Stable-coin-based system with strong community

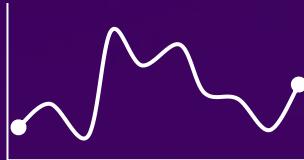

Synthetic assets with ultra-low gas fees

ANCHOR PROTOCOL

Anchor Protocol is a Terra-based application built by Terraform Labs (TFL).
Anchor is a savings protocol offering low-volatile yields and security on
Terra stablecoin deposits.

Incentive for WFD token holders to stake and invest in projects, reducing volatility of the WFD token price.

Manage project fund distribution release using project milestone smart contracts, preventing scam with full transparency.

COMPETITIVE ADVANTAGES

-  Yield benefit for backers
-  Bridge real world and blockchain
-  Secure & refundable deposits
-  Cross-Chain Incubator
-  Deflationary token value
-  Money release with milestone and investor vote approval
-  Community voting power
-  Investor voting power

HOW THE **WEFUND** PLATFORM WORKS

* If projects do not meet milestones:

Delay – Work with project team and create time extension for milestone delivery.

Delete – Money returned to backers with Anchor yield

The image shows the homepage of the WeFund platform. At the top, there is a navigation bar with links for "Home", "Projects", "Invest in WeFund", "Create Your Project", and "Connect Wallet +". The main title "WeFund" is displayed above the subtitle "Community Crowdfunding Cross-Chain Incubator". Below the title, there is a large graphic of a grid with glowing pink and blue lines. A section titled "ABOUT WEFUND" features the text "1 GOAL PASSION" and a brief description of the platform's mission to host high-quality projects with 100% transparency and security. To the right, there is a grid of six icons representing different features: "Yield Benefit For Backers", "Bridge Real-World and Blockchain", "Cross-Chain Incubator", "Deflationary Token Value", "Community Voting Power", and "Money release with Milestone system after Investor Voting approval". At the bottom, there is a button labeled "Download白皮书" (Download Whitepaper) with a rocket icon.

OUR DEMO APK
WEB APP

A LAUNCHPAD FOR CRYPTO PROJECT

During trial period, transaction fees are to 5% to help finance platform development

WEFUND INTERFACE Sample (Project Proposer)

The screenshot shows the WeFund platform's user interface. At the top, there is a navigation bar with links for "Home", "Projects", and "Invest in WeFund". Below the navigation bar, there are two buttons: "Create Your Project" (blue) and "Connect Wallet +". The main content area has a dark purple background with abstract shapes. A breadcrumb navigation "Home > Back the Project" is visible. The title "Invest in WeFund" is prominently displayed. Below the title, there is a progress bar with three steps: "Step 1", "Step 2", and "Final Step". The current step, "Step 2", is highlighted with a blue circle. Below the progress bar, the text "SAFT Form" is displayed. A note below the form says "Please check and confirm the form and go next step". The form itself is a white rectangular area containing legal text. The text includes the title "WFD Token, a product of AI.WFD Ltd SAFT (\$Simple Agreement for Future Tokens)", a statement about the instrument being issued by WeFund, and a detailed section titled "1. Events" which describes the "Network Launch" and "Dissolution Event".

WEFUND INTERFACE Sample (Investor)

1

WeFund provides investor security, prepares projects for community fundraising approval, and minimizes risk for the investor.

2

The quality of the WeFund platform **reflects the high-quality projects** hosted on the platform and its community.

3

Investors have **the capability to approve** project milestones.

4

WeFund aim to **deliver winning projects** with full community approval, transparency, and minimal risk.

THANK YOU

Let's keep in touch
